

TEXAS TECH UNIVERSITY HEALTH SCIENCES CENTER EL PASO

Operating Policy and Procedure

TTUHSC EL PASO FIRE RESPONSE PROCEDURE

USO Required Training Report

Departmental Unit Safety Officers are required to review fire response procedures with department employees at least once each year and/or have employees complete emergency fire response training online. Confirmation of this training should be sent to the TTUHSC El Paso Safety Services office using this form or using the form available to Unit Safety Officers through their Administrative Controls on the Safety Services web site: http://el Paso.ttuhsce.edu/elpsafetyservices/uso_admin_controls/index.aspx.

The following items must be reviewed with faculty and staff in the department:

- 1. Correct fire emergency response including:
a. RACE procedure
i. Rescue persons in danger
ii. Activate the fire alarm system
iii. Contain fire by closing doors
iv. Evacuate to a safe area
b. Pull station locations
c. Phone numbers to call
d. Primary and secondary evacuation routes and the location of the assigned meeting area
2. Patient and visitor movement.
3. Fire Drills
4. Fire Extinguishers (See Attachment D)
a. Location
b. Types
c. Proper Use
i. Training
ii. PASS procedure

Note: FIRE ALARMS AT TTUHSC ELPASO REQUIRE OCCUPANTS TO EVACUATE.
