TTUHSC EL PASO VPN Setup for Windows 8

1. Go to your Desktop from the Tile screen.

2. Access the Charms bar by moving your cursor to the lower right corner of your screen or by pressing the Windows key + C.
3. Click on the **Settings** button on the **Charms bar**.

4. On the **Settings bar**, select **Control Panel**.
5. Select **Network and Internet** from the Control Panel.

6. Select **Network and Sharing Center** from the Control Panel.
7. Select **Setup new connection or network**.

8. Select **Connect to a workplace** and press **Next**.
9. If you receive the prompt “Do you want to use a connection that you already have?” select “No, create a new connection” and click Next. If you don’t get this prompt skip to the next step.

11. In the Internet address field type svpn.elpaso.ttuhsce.edu and in the Destination name type TTUHSC VPN. It is optional if you want to “Remember my credentials,” otherwise click Create.

12. The Networks – View Connections Setting Bar will pop-up, but just ignore it. Click on Change adapter settings.
Then right click on TTUHSC VPN and select Properties.

13. Select the Security tab. In the Type of VPN drop menu, select Layer 2 tunneling protocol with IPsec (L2TP/IPsec). In Data encryption drop menu, select Require encryption (disconnect if server declines) then select Allow these protocols. Place a checkmark on Challenge Handshake Authentication Protocol (CHAP) and Microsoft CHAP Version 2 (MS-CHAP v2) then click on the Advance settings button.
14. Select Use preshared key for authentication. In the Key field, type ttuhsc then click OK. Next, the TTUHSC VPN Properties window will reappear, click OK to save the changes you made.

15. To connect to the TTUHSC network via VPN, click on the network button in the notification area (lower right corner) to access the network side bar.

Or

The network side bar will appear automatically. Click on TTUHSC VPN and click on the Connect button that appears.
16. In the next login prompt, under **User name** type `ttuhsc\eRaider`. Under **password**, type your **eRaider password**.
17. To disconnect from the TTUHSC VPN, click on the network button located in the notification area to access the network side bar.

The network side bar will appear automatically. Click on **TTUHSC VPN** and click on the **Disconnect** button that appears.
