

TTUHSC PAUL L. FOSTER SCHOOL OF MEDICINE 2013 RESIDENCY MATCH

The Texas Tech University Health Sciences Center (TTUHSC) Paul L. Foster School of Medicine, inaugural Class of 2013 has had a successful match process through the National Residency Match Program (NRMP). The NRMP is operated by the Association of American Medical Colleges (AAMC) and is sponsored by the American Board of Medical Specialties, American Medical Association, American Hospital Association, Council of Medical Specialty Societies, and the AAMC. The NRMP oversees a computerized process that links choices of graduating medical students with preferences of Residency Program Directors. Results were announced on “Match Day,” March 15, 2013.

Overall, 40 senior medical students at TTUHSC Paul L. Foster SoM were successful in matching to excellent graduate medical education positions. Four students have been accepted to programs in El Paso, 40% are remaining in Texas, 38% have matched to Primary Care (Family Medicine, Internal Medicine, Pediatrics, or Obstetrics-Gynecology); and two students will begin their service to our country through the military match. “Match day for the Paul L. Foster students is a culmination of four years of hard work by students and faculty. We are all very proud of the growth we have seen in our students and the excellent residencies that they have matched with. I know they will carry the name of TTUHSC Paul L. Foster School of Medicine proudly and we are happy to count them as the first alumni of our school.” said Kathryn Horn, M.D., Associate Dean for Student Affairs.
