

Policy and Procedure

SON OP: 30.090 - Grade Point Average Policy

PURPOSE The purpose of the Gayle Greve Hunt School of Nursing Grade Point Average Policy and Procedure is to provide a standard for calculation of grade point average.

REVIEW The policy will be reviewed biennially by September 1 of each even numbered year by the Associate Dean.

POLICY/PROCEDURE

The School of Nursing uses two grade point averages (GPAs) to determine progressions within the program.

1. The semester GPA is determined by dividing the total number of grade points acquired at TTUHSC during that semester by the total number of semester hours in which the student was registered at TTUHSC, exclusive of courses in which a grade of "W" is received.
2. The cumulative overall GPA is obtained by dividing the total number of grade points earned in all courses at TTUHSC by the total number of semester hours of all courses for which the student has registered at TTUHSC including hours of F and WF. Repeated registrations are counted in the total.

When a course is repeated, both grades are used in calculating the GPA and both grades appear on the transcript.

Only courses taken and grades received at TTUHSC are used in calculating GPAs.
