– *The Gold-Headed Cane* –

The Gold-Headed Cane Award is a long-standing tradition in medicine instituted by the Royal College of Physicians in London. The college selected a physician it deemed to be an outstanding practitioner to carry the cane.

Dr. John Radcliffe was the first documented physician to carry the Gold-Headed Cane in England from 1689 to 1714. Between 1689 and 1825, the cane was presented to five distinguished British physicians: Radcliffe, Mead, Askew, Pitcairn and Baille. None of these men made contributions to the medical literature, but all were outstanding clinicians who exemplified the ultimate in consideration of patient care. The Gold-Headed Cane carried by these men now rests in the Museum of the Royal College of Physicians in London.

The American Association of Pathologists and Bacteriologists brought the tradition to America in 1919, presenting the award to Dr. Harold Ernst, Professor of Pathology at Harvard. From Harvard, the cane tradition was picked up by societies in California, Pennsylvania and Texas. Dr. William J. Kerr, who initiated the awarding of the Gold-Headed Cane at the University of California in 1939, felt that while the science of medicine had been appropriately recognized and rewarded, the art of medicine “should be more forcibly brought to the attention of students, faculty, and to all those concerned with the care of patients.” A number of medical schools in the United States have since adopted the symbol to recognize excellence in clinical medicine.

The tradition continues at the TTUHSC El Paso Paul L. Foster School of Medicine. The recipient is selected jointly by students and faculty as the individual who best exemplifies the attributes most desirable in the competent and caring physician. Dr. Herb Janssen, a faculty member with TTUHSC El Paso for over 45 years, has handcrafted a walking cane and generously donated it to our school. This gold-trimmed walking cane and an engraved plaque with the list of recipients’ names will be kept on display in the glass cases of the Medical Education Building for years to come.

Class Oath

At all times, I will remember that I am a servant of humanity.
To this end, I profess the following:

I will uphold and build upon the standards of my predecessors, maintaining a scientist's curiosity while respecting the wisdom of the past.

I will maintain a reverence for all those entrusted to my care, both in life and in death, for they are my teachers. Through competence and compassion, I will express gratitude for their willingness to help me grow.

Forsaking motivations that could compromise judgment, I will offer treatment to the best of my ability with equity for all. I will respect my patients' sovereignty while minimizing harm.

I will fulfill my role with integrity and humility, in collaboration with my patients, their loved ones, and our partners in care. Although I am a steward of my community, I will remember that I am fallible. I will reflect on my experiences, acknowledge my limitations, and seek help whenever needed. I will not only empower others to maintain good health; I will strive to do so myself.

Affirming my community and loved ones as a part of my journey, their needs will not be ignored. Thank you for the sacrifices you have made, and will make.

Above all, I will remember that medicine is intrinsically bound to humanity in a majestic confluence that shapes and improves upon our society.

I shall remember this oath and strive towards the ideals it embodies. I take this oath solemnly, freely, and upon my honor.
