LEARNING OBJECTIVES

Following the conference, participants should be able to:

- To suggest a more critical, evidence-based approach to understanding and responding to migration in a globalized world.
- Identify ways in which health care practitioners and scholars can integrate nonmedical drivers of health (social determinants of health) to impact health inequalities in border communities.
- Discuss New York City's public health response to the recent surge of asylum seekers.
- To highlight several key myths about migration that are shaping policy in the United States and elsewhere.

4th Annual Global Health Conference

CALL FOR ABSTRACTS

Abstract submissions are due by Friday, April 7, 2023. Authors will be notified of acceptance by Friday, April 14, 2023.

CALL FOR ABSTRACTS POSTER SESSION

As part of the 4th Annual Global Health Conference, there will be an opportunity to present a poster on research related to global health. Abstracts may present new information or previously published or presented information. Posters will be displayed throughout the day of the conference; however, at least one author is required to be at the poster display for the duration of the poster session from 3:45 – 4:45 p.m. April 21, 2023.

By submitting a research abstract for display, the author(s) agree to be available to present.

The 4th Annual Global Health Conference will feature the presentation format, the International Flash Talk Presentations. If selected, authors will be asked to participate in the International Flash Talk Presentations. This new format will feature International Flash Talks by 10 poster presenters. Each speaker will have up to five minutes (and up to two slides) to highlight major findings and other noteworthy details.

For the International Flash Talk Presentations, the primary author listed on the submission form must be the speaker. The presenter will need to prepare up to two slides AND a printed poster for the presentation.
