5th Annual Global Health Conference 2024

FRIDAY, MARCH 22, 2024

MSBII AUDITORIUM

LEARNING OBJECTIVES

Following the conference, participants should be able to:

- Determine the scope of the problem of violence against health care in war.
- Explore the importance of collaborative partnerships among healthcare professionals, policymakers, community organizations, and advocacy groups in addressing border health issues.
- Describe considerations for designing multi-level strategies to support vaccination decision-making and equity in the post COVID-19 pandemic era.
- Justify the importance of resilience in the context of the substance use workforce.
