HSCEP OP: 50.04, MPIP Clearing Fund Management

PURPOSE: The purpose of this HSCEP OP is to establish the rules and requirements for managing and reconciling the Clearing Fund for the Medical Practice Income Plan (MPIP).

REVIEW: This HSCEP OP will be reviewed April 1 of every even numbered year by the PLFSOM Administration Senior Director and the MPIP Senior Director, with recommendations for revisions submitted to the Associate Academic Dean for Finance and Administration by April 15.

POLICY/PROCEDURE:

1. Definitions.

MPIP Clearing Fund, previously known as Trust Fund, was established in Banner for accumulating GE Centricity (formerly known as IDX) receipts at each campus. The Banner clearing fund is: 133003.

2. Managing Clearing Fund Activity. The MPIP Clearing Fund was established to allow for central management of the MPIP GE Centricity billing and collections function. The MPIP Clearing Fund facilitates patient revenue postings that often involve more than one MPIP department.

Deposits recorded in the Clearing Fund should only include patient income that is maintained in the GE patient accounting system. Other MPIP revenue that is not patient based, including most contract revenue, should not be recorded in the Clearing Fund and instead should be posted directly to the applicable MPIP FOAP(s) of the department(s) that earned the revenue.

Distributions from the Clearing Fund are processed based on payments that post to GE Centricity, adjusted for refunds and other accounting items. Expense distributions from the departments to the appropriate fund or account occur at the time of the revenue distribution.

The MPIP Business Office is responsible for populating the on-line tables necessary to distribute revenue and expenses. Tables, reports and other information may be found at the MPIP Revenue and Expense Distribution website: https://aws03.ttuhsc.edu/MPIPDistribution. Tables should be updated prior to the deadline indicated on that site.

Corrections arising from the monthly distribution can be made by submitting one Journal Voucher per month to Accounting Services or may be corrected in the following month's table distribution as determined by Accounting Services.

Entries to the MPIP Unidentified Billing Area account in the Clearing Fund must be cleared by the MPIP Business Office.

3. Reconciling the MPIP Clearing Fund (Banner) to GE Centricity. The activity and ending balance for the Clearing Fund must be reconciled monthly by PLFSOM Administration Department to the activity and balance in GE Centricity. PLFSOM Administration Senior Director must review the completed reconciliation. Reconciling items need to be cleared in a timely manner. Items over 60 days should include an explanation. A completed and reviewed monthly reconciliation must be submitted to Accounting Services no later than 60 days after the end of each month. Reconciliations not received within 60 days will be considered delinquent. Accounting Services will notify the Chief Financial Officer each month of delinquent reconciliations. A completed August 31 reconciliation and documentation must be submitted to
Accounting Services by October 31 each year, to document the reconciliation of the balances at the end of the fiscal year. The PLFSOM Administration Department should retain documentation to explain all reconciling differences between the Clearing Fund and GE Centricity, with such documentation to be made available upon request from Accounting Services, Internal Audit or other administrative offices. Any permanent differences must be promptly corrected. Any year-end correcting entries must be sent to Accounting Services by September 10.

Examples of reconciling differences that could exist between the activity and balance in the Banner Clearing Fund and the activity and balance in GE Centricity follow:

a. Payments recorded in GE Centricity on the last business day of the month that are not posted to the Clearing Fund until the first business day of the subsequent month (or vice versa)
b. Returned checks promptly deducted from the Clearing Fund towards the end of the month but not recorded in GE Centricity until the subsequent month (or vice versa)
c. Patient refunds promptly deducted from the Clearing Fund towards the end of the month but not recorded in GE Centricity until the subsequent month (or vice versa)
d. Payments promptly recorded to the Clearing Fund towards the end of the month when the wire payment is received but not recorded in GE Centricity until the subsequent month when the tapes are received
e. Deposits posted to the Clearing Fund for a different campus than is reflected in the recording of the payment in GE Centricity
f. Voided refund checks that are recorded in GE Centricity towards the end of the month when the check cancellation request form is filled out and sent to Accounting Services but not posted to the Clearing Fund until the subsequent month when the form is received and processed by Accounting Services
g. Deposits posted to the Clearing Fund for collections not identified with a known billing area in GE Centricity (and thus not recorded in GE Centricity)

Failure by PLFSOM Administration Department to timely reconcile the Clearing Fund significantly increases the risk of fraud and malfeasance.

4. **Responsibility for Internal Controls and Review.** The Chief Financial Officer is responsible for establishing internal controls and processes to insure that cash receipts recorded in GE Centricity are properly deposited, recorded, and reconciled to the Banner finance system through the MPIP Clearing Fund. (Basic Principles of Internal Control are located in [Attachment A, HSCEP OP 50.03](#)).

The PLFSOM Administration Senior Director, and the Senior Director of MPIP Business Office will review the monthly reconciliations to insure completion and accuracy.
