SARP Course Description

Overview
The Paul L. Foster School of Medicine Scholarly Activity and Research Program (SARP) Course provides medical students with an opportunity to design and execute independent research or scholarship under the guidance of faculty mentors (TTUHSC El Paso faculty, or approved faculty associated with other institutions). To optimize the mentor / student experience, a faculty mentor can supervise a maximum of five new MSI students each year. A wide variety of topics and research areas are available in three broad categories, allowing for a project to be tailored to a student’s background and interests: 1) basic clinical and translational research; 2) epidemiology, community-based, behavioral, public, and environmental health; and 3) medical humanities, qualitative research, and medical education research. All projects must comply with federal and institutional requirements (e.g., IRB, IBC and IACUC).

The overall goal of the SARP course is to engage and educate medical students about the process of addressing a scholarly or research question. This hands-on experience will increase the student’s awareness and appreciation of the importance of research in providing the basis for evidence-based medical knowledge. This course will expose students to new ideas and attitudes and will help develop skills that will strengthen their medical training and broaden their perspective on how new knowledge is obtained and disseminated. The SARP course encourages students to seek a deeper understanding of biology and disease processes through a scholarly approach that will make them stronger physicians and valued members of the medical community.

The SARP Course is completed during a student’s time at PLFSOM. Research or scholarship pursued before matriculating to the PLFSOM cannot be used directly in fulfillment of this requirement; however, a student can continue working on earlier projects or continue working with a previous mentor. In this case, clear documentation explaining how the SARP activities are extensions of any prior work must be provided with sufficient detail about the continuation of work as a PLFSOM student versus previous work. Students participating in group projects (where two or more students work with a single mentor) should clearly identify a distinct hypothesis or research question that can distinguish their contribution and provide for an independent SARP Final Report and SARP Poster.

Educational Methods and Learning Experiences
The SARP course focuses on the student / mentor relationship. The expectation is that once a good match is made, the mentor will closely guide the student in the development of the Project Plan, be actively involved in the execution of the project, and help the student in the development of the Final Report and Poster. To optimize the mentor / student experience, a faculty mentor is restricted to a maximum of five new MSI students each year.
Faculty at TTUHSC El Paso will review each assigned component of the SARP course (Project Plan, Final Report and Poster) and provide the student with formative feedback. Criteria for assessing these assignments are based on the SARP Course Goals and Objectives outlined below.

In reinforcement of the SARP Course Goals and Objectives, sessions provided through the College Colloquium, and the Society, Community, and the Individual (SCI) courses will introduce students to ethics in research and the relationship between hypothesis-driven research and evidence-based medicine.

**Components of SARP**
The SARP requirement is a 3-credit course consisting of three 1-credit components: one credit is for the selection of a mentor, preparation and submission of a Project Plan and completion of CITI Training; one credit for project execution and submission of the Final Report; and one credit for a Poster presentation. Selection of a mentor and preparation of the Project Plan is due at the end of the first year.

**SARP Course I - PSAP 5401**
Project Plan: Registration for this SARP Course component is in the Spring Semester, AY1. To receive a pass for completion of SARP Course I, students must submit their Project Plan by the deadline, have their mentors sign off on the Project Plan, complete their CITI Program Research Training, and establish any necessary compliance requirements (IRB, IBC, IACUC). In addition, students will be informed of any serious reviewer concerns about their Project Plan and will be required to submit a revised Project Plan within 2 weeks of notification.

**CITI Program Research Training and Projects Requiring IRB and / or IACUC Approval**
CITI Program Research Training is an online course in human subject protection that all students must complete in addition to the Project Plan submission (https://www.citiprogram.org/). After completion of CITI Program Research Training students will be added to the iRIS system database. SARP projects involving human subjects, human materials, or animals require appropriate documentation of Institutional Review Board (IRB), Institutional Biosafety Committee (IBC), or Institutional Animal Care and Use Committee (IACUC) compliance that is submitted through REDCap.

**Grading of the SARP Course I Project Plan**
Project Plan will first be triaged by the SARP Director to assure that all required textual elements are included; if not, the student will be notified and allowed a 3-day grace period to resubmit a complete Project Plan; if not submitted by this deadline students will meet with the SARP Faculty Co-Directors and their College Mentor to discuss the situation, along with a notation in their SARP Professionalism Report. Following grading by a FSOM faculty reviewer using a grading rubric (available in the SARP Syllabus and on the SARP Website) a Pass or Not-Yet-Pass determination will be made. If Pass, the grading rubric will be deposited in the individual student’s ePortfolio. If Not-Yet-Pass, the student will be contacted by email, the grading rubric included, and provided 2 weeks to revise and resubmit the Project Plan. The revised Project Plan will be re-reviewed by
the original reviewer and the SARP Faculty Co-Directors. If Pass, the grading rubric for the revised Project Plan will be deposited in the individual student’s ePortfolio. If Not-Yet-Pass, the student will receive a grade of ‘FA’ (Fail) on their official transcript for PSAP 5401 and will be referred to the Committee on Student Grading and Promotion (GPC).

**SARP Course II - PSAP 6401**

**Final Report:** Registration for this SARP course component is as follows:

- Track 1, fall AY2.
- Track 2, fall AY3.
- Track 3, fall AY4.

To receive a pass for completion of the SARP Course II, students must submit their Final Report by the assigned deadline (depending on Track) and revise the Final Report to accommodate any serious reviewer concerns within 2 weeks of notification.

**Grading of the SARP Course II Final Report**

The SARP Course Final Report will first be triaged by the SARP Director to assure that all required textual elements are included; if not, the student will be notified and allowed a 3-day grace period to resubmit a complete Final Report. Following grading by a FSOM faculty reviewer using a grading rubric (available in the SARP Syllabus and on the SARP Website) a Pass or Not-Yet-Pass determination will be made. If Pass, the grading rubric will be deposited in the individual student’s ePortfolio. If Not-Yet-Pass, the student will be contacted by email, the grading rubric included, and provided 2 weeks to revise and resubmit the Final Report. The revised Final Report will be re-reviewed by the original reviewer and the SARP Faculty Co-Directors. If Pass, the grading rubric for the revised Final Report will be deposited in the individual student’s ePortfolio. If Not-Yet-Pass, the student will receive a grade of ‘FA’ (Fail) on their official transcript for PSAP 6401 and will be referred to the Committee on Student Grading and Promotion (GPC).

**SARP Course III - PSAP 7401**

**Poster Presentation:** Registration for the SARP Course III component is as follows:

- Track 1, spring AY2.
- Track 2, spring AY3.
- Track 3, spring AY4.

Credit for the SARP Course III is received on successful presentation of the poster to a panel of faculty judges during the annual SARP Symposium and submission of the poster through REDCap by the deadline. The student’s faculty mentor is also required to sign off on the Poster through REDCap. Students will be informed of any serious reviewer concerns about their Poster presentation and will be required to submit a revised Poster and written response to critiques within 2 weeks of notification.

Guidelines for the SARP I, II and III assignments are on the SARP Website, in Appendix B on Elentra.
**Grading of the SARP Course Poster Presentation**

Following grading by FSOM faculty reviewers using a grading rubric (available in the SARP Syllabus and on the SARP Website) a Pass or Not-Yet-Pass determination will be made. If Pass, the grading rubric will be deposited in the individual student’s ePortfolio. If Not-Yet-Pass, the student will be contacted by email, the grading rubric included, and provided 2 weeks to revise and re-present the Poster Presentation to SARP Directors or faculty reviewers. If Pass, the grading rubric for the revised Poster Presentation will be deposited in the individual student’s ePortfolio. If Not-Yet-Pass, the student will receive a grade of ‘FA’ (Fail) on their official transcript for PSAP 7401 and will be referred to the Committee on Student Grading and Promotion (GPC).

**CITI/COI Training and Projects Requiring IRB and/or IACUC Approval**

If projects involve human subjects and/or animals, the student must show proof of IRB or other ethical oversight compliance for the research. Most cadaver-based studies are exempt from IRB approval; however, all students must complete CITI/COI training regardless of nature and subjects of their research project. Acceptance of Final Reports and Poster Presentations associated with human subjects and/or animals is contingent on proof of meeting federal/institutional requirements (e.g., IRB/IACUC approval/exemption as applicable).

**SARP Completion Tracks**

Deadlines for the completion of the Final Report and Poster Presentation are flexible, depending on an individual student’s project design; thus, there are 3 tracks for completing the SARP Course based on the following timelines (Figure 1).

**Three Tracks to complete SARP Course**

<table>
<thead>
<tr>
<th>Track 1</th>
<th>Track 2</th>
<th>Track 3</th>
</tr>
</thead>
<tbody>
<tr>
<td>AY1</td>
<td>PP</td>
<td>PR</td>
</tr>
<tr>
<td>AY2</td>
<td>FR</td>
<td>PR1</td>
</tr>
<tr>
<td>AY3</td>
<td>Poster</td>
<td>PR2</td>
</tr>
<tr>
<td>AY4</td>
<td></td>
<td>FR</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Poster</td>
</tr>
</tbody>
</table>

AY = Academic Year  
PP = Project Plan  
FR = Final Report  
PR = Progress Report (2 PRs required for Track 2; 4 PRs for Track 3)  
Poster = Poster presentation at SARP Symposium

**Figure 1**

**Track 1: Completion of SARP II and SARP III in fall of MS2 Year**

Track 1 concentrates execution of the project during the summer between AY1 and AY2 with a Final Report and Poster Presentation in the fall of AY2.
Track 2: Completion of SARP II and SARP III in fall of Year 3 or fall of Year 4
Track 2 provides the student more flexibility in the execution of their project with the completion of the Final Report and Poster Presentation in the fall of AY3. To assure adequate progress and tracking, students are required to submit 2 Progress Reports, one in the fall of AY2 and a second Progress Report in the spring of AY2 (Progress Report forms available on Elentra Appendix A).

Track 3: Completion of SARP Course II and SARP Course III in AY4
The longest track for completing the SARP Course involves submitting the Final Report in the fall AY4 and presenting the Poster in the spring AY4.

Competencies, Program Goals and Objectives, and Outcome Measures
The Paul L. Foster School of Medicine Educational Program Goals and Objectives (PGOs, available in Appendix C) are outcomes-based statements that guide instruction and assessment as a student develops the knowledge and abilities expected of a physician. All elements of the PLFSOM curriculum are derived from and contribute to the fulfilment of one or more of the medical education program’s goals and objectives found at PLFSOM AY 2023-24 PGOs. The overall Goals and Objectives for the SARP Course are listed below, with associated PLFSOM PGOs provided in parentheses.

SARP Course Goals and Objectives:

Goal 1:
Develop physician scholars through a rigorous scholarly activity and research experience.

  o Objective 1: Students will develop a research question or project theme, identify a faculty mentor, and complete all requirements for the SARP Course. (PGOs 2.6, 4.2, 4.3, 5.1, 5.6, 5.7, 7.3, 7.4).

Goal 2:
Develop skills for scholarly and research projects including the pursuit, assimilation, and transmission of knowledge to others.

  o Objective 2: Students will learn how to search the literature, identifying previous knowledge and theory that provides context and relevance for their project. (PGO 2.6).
  o Objective 3: Students will submit a Project Plan, including a rationale, specific aims, methods, analysis, and timeline. (PGOs 2.6).
Objective 4: Students will choose and employ adequate methods for the acquisition and statistical analysis of data and information for their project.
(PGOS 2.6, 5.2).

Objective 5: Students will submit a Final Report of their project, providing a concise summary of the project execution, data acquisition and analysis, and conclusions.
(PGOS 2.6, 5.2).

Objective 6: Students will demonstrate clear and effective communication skills (oral and written) in the presentation of their project.
(PGOS 4.2, 4.3, 5.6, 5.7).

Goal 3:
Incorporate professionalism and ethical principles in scholarly activity and research.

Objective 7: Students will learn about protection of human and animal subjects involved in research.
(PGO 2.6).

Objective 8: Students will learn and exhibit ethical principles in the design and execution of their projects.
(PGO 2.6).

Objective 9: Students will exhibit attitudes and behaviors consistent with professional conduct of research and scholarship.
(PGOS 2.6, 4.2, 4.3, 5.1, 5.6, 5.7).

Objective 10: Students will submit each assignment by the deadline and respond to all communications and feedback in a timely and professional matter.
(PGOS 4.2, 4.3, 5.1, 5.6, 5.7).

Objective 11: Students will collaborate generously and professionally with their mentor, faculty, students, and staff during completion of their research project.
(PGOS 4.2, 4.3, 5.1, 5.6, 5.7, 7.3, 7.4, 8.1)

Goal 4:
Develop knowledge and skills in the pursuit of self-directed learning, life-long learning and self-efficacy in research and scholarship.

Objective 12: Students will learn principles of self-directed and life-long learning and apply these to the design and execution of their projects.
(PGOS 2.6, 3.1, 3.3)

Objective 13: Students will learn the principles of self-efficacy, monitoring and sharing personal progress through self-evaluation and reflection, and SARP Course evaluation.
(PGOS 3.1, 3.3, 4.2, 4.3, 5.1, 5.6, 5.7, 8.1, 8.2, 8.3, 8.4).

| PPD-8.4 | Utilize appropriate resources and coping mechanisms when confronted with uncertainty and ambiguous situations. | • Research or Project Assessment (SARP Professionalism Rubric) • Narrative Assessment (SARP Mentor Evaluation) |
Course Policies and Procedures

Grading Policy
Detailed information regarding institutional and school-level grading procedures and transcript notations can be found in the TTUHSC-EP ‘Grading Procedures and Academic Regulations’ (HSCEP OP 59.05) policy and PLFSOM ‘Grading, Promotion, and Academic Standing’ (GPAS) policy. SARP course components are Pass/Fail. Grades are determined by the submission of assignments on time and responding to any required modifications of submissions based on reviewer feedback. SARP assignments (Project Plan for SARP I and Final Report for SARP II) are assessed by a PLFSOM faculty reviewer using a Project Plan Rubric and a Final Report Rubric (Appendix A). Students will be asked to revise their Project Plan or Final Report if it is judged unsatisfactory. Revised reports will then be re-reviewed by the original reviewer and the SARP Co-Directors. For SARP III, the Poster is presented at the SARP Symposium and is reviewed and judged by a panel of faculty members (Poster Presentation Rubric in Appendix A). For all SARP Course assignments, unsatisfactory performance reflected in the assessment rubric must be satisfactorily addressed by the student with revision and resubmission of the assignment by the resubmission deadline.

Professionalism
A SARP Professionalism Summary Assessment (PSA) will be submitted for the student by the SARP Faculty Co-Directors on completion of all SARP Course components. The PSA rubric is available on the SARP Website also in Appendix A.

Completed PSA rubrics will be posted in the individual student’s e-Portfolio and provided to the student’s College Mentor for use in preparing an overall professionalism evaluation.

Registration
Notification for SARP Course registration deadlines and other announcements will be available on Elentra, the SARP Website and distributed by email. Once registered for SARP Course components, a student can drop without penalty until the required census drop date assigned for each class by the registrar. Dropping SARP Course components after the census drop date will result in a failure designation (FA) on the student’s transcript (see HSCEP OP: 59.06).

Deadlines
All SARP deadlines need to be respected. Required assignments are listed below and are available on the SARP Website and on Elentra (for deadlines see ‘Important Dates’ in Course Policies and Procedures).

- Completion of CITI Training and satisfactory completion of Project Plan (SARP Course I).
- Satisfactory completion of Progress Reports for Tracks 2 & 3.
- Satisfactory completion of the Final Report (SARP Course II).
- Poster presentation at a SARP Symposium (SARP Course III). Submission of an electronic poster file through REDCap by the deadline.
- Submission of excuses for not meeting any SARP Course deadline must be submitted both to the SARP Course Director and to the Office of Student Affairs. Any necessary deadline
extensions or remediation plans will be determined by the SARP Faculty Co-Directors, the Office of Student Affairs, and the student’s College Mentor.

Two unexcused missed deadlines or an unacceptable SARP assignment following two revision cycles will result in a failing grade on the student transcript and referral to the Committee on Student Grading and Promotion (GPC). If remediation of the FA grade is permitted by the GPC, the remediation process will include both a discussion with the student and satisfactory completion of the original assignment as determined by the SARP Faculty Co-Directors resulting in a grade of PA/FA (Passed Remediation / Failed First Attempt) on the student’s transcript.

**Attendance / Participation**

Attendance at the SARP Series 1 (Orientation) is mandatory. Unexcused absence will result in an Event Card with acknowledgement in the SARP Professionalism Summary Assessment. Attendance at additional SARP Series presentations is not mandatory, but is encouraged as valuable training and information about the SARP Course will be provided. Students need to RSVP for lunch meetings.

**External SARP Projects**

Projects may be conducted outside of PLFSOM and TTUSHC-EP; however, the student and mentor must communicate with SARP Faculty Co-directors for approval prior to initiating a research project.

**International Research**

International research in fulfilment of the SARP Course requirement is not currently allowed.

**4th Year Research Elective Blocks**

Use of a research elective block during Year 4 is not allowed for fulfilment of the SARP Course requirement.

**Project Plans**

*All students must identify a SARP Course project mentor and prepare and submit a Project Plan during their first Academic year (spring SARP Course I – 5401).*

Detailed guidelines for the SARP Course Project Plan are provided in the Appendix and are also available on the SARP Website and on Elentra.

**Changing SARP Projects**

Changing a SARP Course project is possible; however, the reason for changing needs to be justified and documented.

The SARP Course Project Change Request form is provided in the Appendix and is also available on the SARP Website and on Elentra.
The student must document that they have informed both the original mentor (if possible) and the new mentor of the project change. The Project Change Request form must include a completed new Project Plan following the guidelines for this SARP Course component. The new Project Plan must be reviewed and approved by the SARP project mentor, and will also undergo review as described for a Project Plan (Page 6)

**Scholarly Integrity**

Students engaged in the SARP Course should demonstrate a high level of intellectual and personal integrity in all aspects of their project development, execution, and communication.

Students should:

- Give fair and accurate credit to individuals who contributed to the results and interpretation presented in your Final Report and Poster Presentation (e.g., this could be done in an acknowledgement paragraph).
- Use proper citations for attributing quotes, previous work, concepts, and ideas.
- Write your own reports and do not engage in plagiarism.
- ChatGPT or other AI utilities used in any component of your submitted assignments for the SARP Course must be clearly identified.

Disability Support Services
TTUHSC El Paso is committed to providing equal access to learning opportunities to students with documented disabilities. To ensure access to this course, and your program, please contact the Academic Success and Accessibility Office (ASAO), to engage in a confidential conversation about the process for requesting accommodations in the classroom and clinical setting. Accommodations are not provided retroactively, so students are encouraged to register with the ASAO as soon as possible. Please note: faculty are not allowed to provide classroom accommodations to a student until appropriate verification from ASOA has been provided to the school and disseminated to the appropriate faculty member(s). For additional information, please visit the ASAO website: https://elpaso.ttuhsc.edu/studentservices/office-of-academic-and-disability-support-services/default.aspx.
Appendix A – Grading Rubrics

SARP Project Plan Assessment Rubric

Instructions for Reviewer: Please use the following category descriptors to give the student feedback on the quality of his/her project. This rubric is meant to provide the student with a feel for how well they did relative to both their peers and your expectations for a project at this stage of their career. Additional written feedback below the rubric or on a separate page would be greatly appreciated!

<td>Accepts Criticism</td>
<td>Rejects constructive criticism</td>
<td>Accepts constructive criticism</td>
<td>Unable to Assess</td>
</tr>
</tbody>
</table>

Describe the student's behaviors that resulted in your ratings on effort, reliability, teamwork, respect, and acceptance of criticism.

Describe the student's development of self-directed learning skills during this project (independence, quality of hypotheses, identification of sources of information, ability to find high quality literature, ownership of the project, etc.).
# SARP Course Professionalism Summary Assessment

Student name: ______________
Date: ______________________

<table>
<thead>
<tr>
<th>Professionalism Objectives</th>
<th>Assessment</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>1) Demonstrate sensitivity, compassion, integrity and respect for all people</strong></td>
<td>Student demonstrates respect for all persons involved with their SARP project. Needs improvement, Pass, Commendable</td>
</tr>
<tr>
<td>(2) Demonstrate knowledge of and appropriately apply ethical principles pertaining to patient privacy, autonomy and informed consent.</td>
<td>Student is knowledgeable about all federal and institutional requirements relevant to their SARP project (e.g., IRB and IACUC). Needs improvement, Pass, Commendable</td>
</tr>
<tr>
<td><strong>3) Demonstrate honesty in all professional and academic interactions.</strong></td>
<td>Student will be transparent and honest in all activities relating to the execution of and reporting on their SARP project. Needs improvement, Pass, Commendable</td>
</tr>
<tr>
<td><strong>4) Meet professional and academic commitments and obligations.</strong></td>
<td>Student meets all program deadlines and is accountable for all commitments related to their SARP project. Needs improvement, Pass, Commendable</td>
</tr>
</tbody>
</table>

Please provide comments related to the above Professionalism assessment (if none, please enter NA)
Appendix B – Guidelines

Guidelines for the SARP Course Project Plan (PSAP 5401)

The Project Plan is a submission to fulfill the first credit of the three credit SARP Course requirement. The Project Plan must be developed with the help of your SARP Course project mentor and needs to describe your project in enough detail to allow a reviewer of the document a clear understanding of your research question or hypothesis, the specific aims of the project, what methods you will use to address these aims, what data, or information you will acquire and what analytic approaches you plan to use. Further, a detailed timeline of the project needs to be included.

Project Plan Points of Emphasis

- For access to the SARP Syllabus, Guidelines, and additional information, please visit the SARP Website: [SARP Website](#).

- If you have any questions or concerns about your SARP Course Project Plan, don’t hesitate to contact the SARP Course Faculty Co-Directors or the SARP Director.

- Your SARP Course project mentor is responsible for helping you develop your project in all its aspects. **Work proactively to develop a solid working relationship with your mentor** to maximize both the success of your project and your professional development.

- It is **essential** to engage in conversations with mentors before including them in the Project Plan.

- The Project Plan needs to be authored by you, representing original work. You must take ownership of the Project Plan and be responsible for its content.

- Group projects are allowed (with up to 5 students working with a single mentor); however, each student should clearly identify a unique research question or hypothesis that can distinguish their contribution and provide for an independent Project Plan, Final Report, and Poster presentation, in fulfillment of the SARP Course credits.

- The SARP Course is designed to provide scholarship / research to enhance your medical school experience, and credit will be given for **work done while you are enrolled at the FSOM**. Scholarship or research pursued before matriculating to the FSOM cannot be used directly in fulfillment of the SARP Course requirement; however, continuing work
on earlier projects, potentially continuing work with a previous mentor, is allowed if you clearly document how your SARP Course activities are extensions of such previous work.

- Please note that **case studies or narrative reviews are not considered sufficient to meet the SARP Course Project requirement.** However, meta-analysis or systematic reviews are acceptable. For information on different types of scientific reviews, please see this helpful publication: *A typology of reviews: an analysis of 14 review types and associated methodologies.*

- Your **Project Plan** must be submitted electronically by **12:00 AM, April 15, 2024**. You will receive emails reminding you of this deadline. Your SARP project mentor will receive a notification requiring acknowledgement of their mentoring responsibility.

- For those with external mentors, students must have permission to present external work at the SARP symposium.

**Project Plan Contents**
Your SARP Course **Project Plan** should contain the following elements:

- **Title of Project**
  Concise sentence or phrase to describe the overall project.

- **Mentor name and contact information**
  Be certain to work closely with your mentor on developing your **Project Plan**. Your mentor will formally sign-off on this document through the REDCap software.

- **Project Background and Significance**
  This should be a concise introduction to the topic of your project and include citations of primary literature to support the development of your ideas, providing a logical foundation for your research question or hypothesis.

- **Research Question or Hypothesis**
  This is a one sentence statement of the project’s overall focus as an explicit research question or hypothesis to be addressed.
Specific Aims with Rationale
The Specific Aims should be a small set of concise one- or two-sentence summaries of what you expect to achieve in executing your SARP Course project. A short paragraph should accompany each Specific Aim to provide a rationale for how the Aim addresses the project’s research question or hypothesis.

Methods
This will be a short description of the methods (employing techniques, materials, databases, surveys, etc.) you intend to use to directly accomplish your Specific Aims.

Analysis
This section describes the methods you will use to analyze your data. For basic research and community / epidemiology projects, this could include a description of the statistical methods to be employed. For a medical humanities or ethics project, this might involve narrative or reflective analysis.

Compliance
If your SARP Course project requires compliance approval for using human subjects (IRB), animals (IACUC), or biohazardous materials (IBC), it is your responsibility to work with your mentor to document these in your Project Plan and clearly describe what compliance is in place or the schedule for obtaining compliance. Please note no data collection should occur without compliance documentation being approved by the institution.

Timeline
Provide a timeline for executing your SARP Course project and when you expect to submit your Final Report. There are 3 tracks to complete your SARP Course project: choose one for creating a timeline for this Project Plan document. However, you can change your Track, if necessary, by submitting a Progress Report. For example, if you submit your Project Plan expecting to complete your SARP Course by Track 1, you can change to Track 2 by submitting a Progress Report on the due date for the Track 1 Final Report. The diagram below outlines the three available Tracks and schedules:
Additional considerations for developing your Project Plan:

- Your **Project Plan** will be assessed by a faculty member using a grading rubric available in the SARP Syllabus. Review this assessment rubric so you’re familiar with how elements of your **Project Plan** will be graded.

- Be certain to **work closely with your mentor** on project planning and obtain and incorporate feedback on all drafts and the submitted **Project Plan**.

- Provide relevant citations and a bibliography using the format suggested in the **AMA Style Manual**. Be certain to read the cited references so the **Project Plan** has scholarly integrity.

- Edit your **Project Plan** carefully:
  - Proofread (suggestion: have a naïve reader look at your final draft).
  - Check spelling
  - Check grammar: punctuation, sentence structure, subject-verb agreement (plural or singular), tense consistency, etc.
  - Be certain your SARP Course project mentor is actively involved in this process.

- If you are **accepted to a summer research program** that does not provide explicit information about your mentor or project, work with the program directors so you can submit a ‘placeholder’ **Project Plan** by the deadline and propose a date you will submit a complete **Project Plan**.
**Integrity Issues**

- Students are required to demonstrate a high level of intellectual and personal integrity during all activities related to completion of the SARP Course, in alignment with their professional identity formation as physicians. This includes communicating clearly and honestly and treating all staff, students, faculty and other participants with respect and dignity.

- Write your own reports. Do not plagiarize, and if significant content derives from published materials, cite appropriately. ChatGPT or other Artificial Intelligence-derived content used in any component of your submitted assignments for the SARP Course must be clearly identified.

**Submitting the SARP Course Project Plan:**

In addition to the Project Plan contents described, your Project Plan requires a Cover Page that includes the following information and format:

- Heading: **SARP Course Project Plan**
- Student name and R-number
- Expected graduation class (e.g., C2027)
- Student email address
- Date
- Title of SARP Course project
- Mentor name and affiliation
- Mentor email address
- Expected completion date for the SARP Course (i.e., choose Track 1, 2, or 3).

The entire Project Plan document, including a Cover Page needs to be submitted electronically. Instructions for submission will be available through emails and on the SARP Website. Please use the following format for naming the submitted Project Plan PDF:

`Last name_First name_C2027_Project Plan_04.15.2024`

Your Project Plan must be submitted electronically by **12:00 AM, April 15, 2024**. You will receive emails reminding you of this deadline. Your SARP project mentor will receive a notification requiring acknowledgement of their mentoring responsibility.

**Grading of the SARP Course Project Plan**

The SARP Course Project Plan will first be triaged by the SARP Director to assure that all required textual elements are included; if not, the student will be notified and allowed a 3-day grace period to resubmit a complete Project Plan; if not submitted by this deadline students will meet with the SARP Faculty Co-Directors and their College Mentor to discuss the situation,
along with a notation in their SARP Professionalism Report. Following grading by a FSOM faculty reviewer using a grading rubric (available in the SARP Syllabus and on the SARP Website) a Pass or Not-Yet-Pass determination will be made. If Pass, the grading rubric will be deposited in the individual student’s ePortfolio. If Not-Yet-Pass, the student will be contacted by email, the grading rubric included, and provided 2 weeks to revise and resubmit the Project Plan. The revised Project Plan will be re-reviewed by the original reviewer and the SARP Faculty Co-Directors. If Pass, the grading rubric for the revised Project Plan will be deposited in the individual student’s ePortfolio. If Not-Yet-Pass, the student will receive a grade of ‘FA’ (Fail) on their official transcript for PSAP 5401 and will be referred to the Committee on Student Grading and Promotion (GPC).

SARP Course Objectives for Project Plan:
The following SARP Course Objectives are addressed by completing the SARP Course Project Plan:

- **Objective 1**: Students will develop a research question or project theme, identify a faculty mentor, and complete all requirements for the SARP Course.
- **Objective 2**: Students will learn how to search the literature, identifying previous knowledge and theory that provides context and relevance for their project.
- **Objective 3**: Students will submit a Project Plan, including a research question or hypothesis, specific aims, rationale, methods, analysis, and timeline.
- **Objective 4**: Students will choose and employ adequate methods for the acquisition and statistical analysis of data and information for their project.
- **Objective 6**: Students will demonstrate clear and effective communication skills (oral and written) in the presentation of their project.
- **Objective 7**: Students will learn about protection of human and animal subjects involved in research.
- **Objective 8**: Students will learn and exhibit ethical principles in the design and execution of their projects.
- **Objective 9**: Students will exhibit attitudes and behaviors consistent with professional conduct of research and scholarship.
- **Objective 10**: Students will submit each assignment by the deadline and respond to all communications and feedback in a timely and professional matter.
- **Objective 11**: Students will collaborate generously and professionally with their mentor, faculty, students, and staff during completion of their research project.
- **Objective 12**: Students will learn principles of self-directed and life-long learning and apply these to the design and execution of their projects.
- **Objective 13**: Students will learn the principles of self-efficacy, monitoring and sharing personal progress through self-evaluation and reflection, and SARP Course evaluation.
Guidelines for the SARP Course Final Report (PSAP 6401)

The Final Report is a submission to fulfill the second credit of the SARP Course requirement. The Final Report must be developed with the help of your SARP Course project mentor and needs to describe the results of your project in enough detail to allow a reviewer of the document a clear understanding of your research question or hypothesis, the Specific Aims of the project, what methods you used to address these aims, what data, or information you acquired and what analytic approaches you used. Finally, a concise description of conclusions, limitations, and possible further work for the project needs to be included.

Project Plan Points of Emphasis

- For access to the SARP Syllabus, Guidelines, and additional information, please visit the SARP Website: [SARP Website](#).

- If you have any questions or concerns about your SARP Course Final Report, don’t hesitate to contact the SARP Course Faculty Co-Directors or the SARP Director.

- Your SARP Course project mentor is responsible for helping you develop your Final Report. Work proactively with your mentor to maximize both the quality of the Final Report and your professional development.

- The Final Report must be authored by you, representing original work. You need to take ownership of the Final Report and are responsible for its content. Do not simply copy and paste a published manuscript.

- Refer to the [AMA Style Manual](#), which provides comprehensive guidelines for preparing uniform technical documents. A full PDF version is available:

- Your Final Report must be submitted electronically by **12:00 AM, September 16, 2024**. You will receive emails reminding you of this deadline. Your SARP project mentor will receive a notification requiring acknowledgement of their mentoring responsibility.

Project Plan Contents

Your SARP Course Final Report should contain the following elements:

- **Title of Project**
  Concise sentence or phrase to describe the overall project.

- **Mentor name and contact information**
Be sure to work closely with your mentor on developing your Project Plan. Your mentor will formally sign-off on this document through the REDCap software.

- **Project Background and Significance**
  This should be a concise introduction to the topic of your project and include citations of primary literature to support the development of your ideas, providing a logical foundation for your research question or hypothesis.

- **Research Question or Hypothesis**
  This is a one sentence statement of the project’s overall focus as an explicit research question or hypothesis to be addressed.

- **Specific Aims with Rationale**
  The Specific Aims should be a small set of concise one- or two-sentence summaries of what you expect to achieve in executing your SARP Course project. A short paragraph should accompany each Specific Aim to provide a rationale for how the Aim addresses the project’s research question or hypothesis.

- **Methods**
  This will be a short description of the methods (employing techniques, materials, databases, surveys, etc.) you intend to use to directly accomplish your Specific Aims. This section will also describe the methods you used to analyze your data.

- **Results**
  The results section includes the relevant findings of your SARP Course Project. This section consists of your figures with appropriate captions and tables.

- **Discussion**
  The discussion portion of your Final Report explores the implications, significance, and context of the research findings. Below is a list of topics often included in a discussion:

  - **Interpretation of Results**: This is the core of the Discussion section. It involves interpreting what the results mean in the context of the study’s hypotheses or research question. This may include explaining how the findings support or contradict previous studies or theories.
  - **Contextualization with Previous Research**: The findings should be compared with the relevant literature. For example, discussing how the results align with, extend, or challenge existing knowledge in the field.
  - **Explaining Unexpected Results**: If there were any surprising or unexpected findings, these should be addressed. The discussion might explore possible reasons for these results and how they fit into the broader context of the field.
  - **Limitations of the Study**: Every study has limitations, and these should be honestly and clearly stated. This may include methodological limitations, constraints on generalizability, or potential sources of bias.
- **Implications of the Findings**: Discuss the implications of the results for the field, practice, policy, or future research. This is where the broader impact of the research is explored.
- **Suggestions for Future Research**: Based on the findings and limitations, the Discussion should suggest areas for further study. This helps to set the stage for future work in the field.
- **Theoretical and Practical Relevance**: If applicable, discuss how the findings contribute to the theoretical understanding of the topic and any practical applications of the research.

- **Conclusions**
  Summarize any conclusions you were able to make. Also comment on any limitations of your study and how your work could be extended.

- **Compliance**
  Attach any compliance documents (IBC, IACUC, IRB – exempt or non-exempt) to the assignment submission portal.

- **Student contribution to the project**
  Include a brief description of your involvement in all aspects of the project and what contributions were provided by others.

**Additional considerations for developing your Final Report:**

- Your Final Report will be assessed by a faculty member using a grading rubric available in the SARP Syllabus. Review this assessment rubric so you’re familiar with how elements of your Final Report will be graded.

- Be certain to work closely with your mentor on project planning and obtain and incorporate feedback on all drafts and the submitted Final Report.

- Provide relevant citations and a bibliography using the format suggested in the AMA Style Manual.
  Be certain to read the cited references so the Final Report has scholarly integrity.

- Edit your Final Report carefully:
  - Proofread (suggestion: have a naïve reader look at your final draft).
  - Check spelling.
  - Check grammar: punctuation, sentence structure, subject-verb agreement (plural or singular), tense consistency, etc.
  - Be certain your SARP Course project mentor is actively involved in this process.
Integrity Issues

- Students are required to demonstrate a high level of intellectual and personal integrity during all activities related to completing the SARP Course, in alignment with forming their professional identity as physicians. This includes communicating clearly and honestly and treating all staff, students, faculty, and other participants with respect and dignity.

- Write your own reports. Do not plagiarize, and if significant content derives from published materials, cite appropriately. ChatGPT or other Artificial Intelligence-derived content used in any component of your submitted assignments for the SARP Course must be clearly identified.

Submitting the SARP Course Final Report:

In addition to the Final Report contents described, your Final Report requires a Cover Page that includes the following information and format:

- Heading: SARP Course Final Report
- Student name and R-number
- Expected graduation class (e.g., C2027)
- Student email address
- Date
- Title of SARP Course project
- Mentor name and affiliation
- Mentor email address

The entire Final Report document, including a Cover Page, needs to be submitted electronically. Instructions for submission will be available through emails and on the SARP Website. Please use the following format for naming the submitted Final Report PDF:

Last name_First name_C2027_Final_Report_10.15.2024

Your Final Report must be submitted electronically by 12:00 AM, April 15, 2024. You will receive emails reminding you of this deadline. Your SARP project mentor will receive a notification requiring acknowledgement of their mentoring responsibility.

Grading of the SARP Course Final Report

The SARP Course Final Report will first be triaged by the SARP Director to assure that all required textual elements are included; if not, the student will be notified and allowed a 3-day grace period to resubmit a complete Final Report. Following grading by an FSOM faculty reviewer using a grading rubric (available in the SARP Syllabus and on the SARP Website) a Pass
or Not-Yet-Pass determination will be made. If Pass, the grading rubric will be deposited in the individual student’s ePortfolio. If Not-Yet-Pass, the student will be contacted by email, the grading rubric included and provided 2 weeks to revise and resubmit the Final Report. The revised Final Report will be re-reviewed by the original reviewer and the SARP Faculty Co-Directors. If Pass, the grading rubric for the revised Final Report will be deposited in the individual student’s ePortfolio. If Not-Yet-Pass, the student will receive a grade of ‘FA’ (Fail) on their official transcript for PSAP 6401 and will be referred to the Committee on Student Grading and Promotion (GPC).

SARP Course Objectives for the Final Report:
The following SARP Course Objectives are addressed by completing the SARP Course Final Report:

- **Objective 1:** Students will develop a research question or project theme, identify a faculty mentor, and complete all requirements for the SARP Course.
- **Objective 2:** Students will learn how to search the literature, identifying previous knowledge and theory that provides context and relevance for their project.
- **Objective 4:** Students will choose and employ adequate methods for the acquisition and statistical analysis of data and information for their project.
- **Objective 5:** Students will submit a Final Report of their project, providing a concise summary of the project execution, data acquisition and analysis, and conclusions.
- **Objective 6:** Students will demonstrate clear and effective communication skills (oral and written) in the presentation of their project.
- **Objective 7:** Students will learn about protection of human and animal subjects involved in research.
- **Objective 8:** Students will learn and exhibit ethical principles in the design and execution of their projects.
- **Objective 9:** Students will exhibit attitudes and behaviors consistent with professional conduct of research and scholarship.
- **Objective 10:** Students will submit each assignment by the deadline and respond to all communications and feedback in a timely and professional matter.
- **Objective 11:** Students will collaborate generously and professionally with their mentor, faculty, students, and staff during completion of their research project.
- **Objective 12:** Students will learn principles of self-directed and life-long learning and apply these to the design and execution of their projects.
- **Objective 13:** Students will learn the principles of self-efficacy, monitoring and sharing personal progress through self-evaluation and reflection, and SARP Course evaluation.
Guidelines for the Poster Presentation (PSAP 7401)

The Poster Presentation is the final credit of the three-credit SARP Course requirement. The Poster Presentation must be developed with the help of your SARP project mentor. The Poster Presentation is the capstone element of your SARP Course Project and should be a concise summary of your research question or hypothesis, the specific aims of the project, what methods you used to address these aims, your project’s results, conclusions, and ethical statement.

Poster Presentation Points of Emphasis

- Your SARP Course project mentor is responsible for helping you develop your Poster Presentation in all its aspects. **Work proactively to develop a solid working relationship with your mentor** to maximize both the success of your project and your professional development.

- The Poster Presentation needs to be created by you, representing original work. You need to take ownership of the Poster Presentation and are responsible for its content. This needs to be a new poster created specifically for the SARP Symposium.

- Your Poster Presentation will be presented at the SARP Symposium and will be assessed by several reviewers according to the Poster Presentation rubric available on the SARP Website, in the Appendix and also on Elentra.

- Your poster will be presented digitally (as a PowerPoint slide) at the Annual SARP Symposium. Poster templates are available from the TTUHSC EP Office of Institutional Advancement.

Poster Contents

Your SARP Course Poster should contain the following elements:

- **Title of Project**

- **Author List**
  Please list all authors and the respective affiliations that participated in your SARP Course Project. By convention as presenter, you should be listed as first author, and your mentor should be listed as the final author.
**Abstract**
The poster abstract contains text (no figures or tables) and appears at the beginning of the poster. The abstract is typically between 200-300 words in length. References should be omitted in the abstract and abbreviations should be avoided.

**Background/Introduction**
This should be a concise introduction to the topic of your project providing a logical foundation for your hypothesis or research question.

- **Hypothesis or Research Question**
  This is a one sentence statement of the project’s overall focus stated as an explicit hypothesis, or a specific research question to be addressed.

- **Specific Aims with Rationale**
  The specific aims should be concise one- or two-sentence summaries of what you expected to achieve in executing your project.

**Materials and Methods**
This will be a short description of the methods (employing techniques, materials, databases, surveys, etc.) you used to directly accomplish your Specific Aims. Graphical representations of your methods or workflow may take some effort to design but it will save you space and are often more visually appealing.

**Results**
This section is where you will include the relevant findings of your SARP Course Project. This section should include your figures with appropriate captions and tables. Remember that figures are usually more appealing than tables and tables although often appropriate can be difficult to read at a distance.

**Conclusions**
This should typically be one or two sentences or bullet points. When presenting your poster, you should spend some time explaining the implications and significance of your findings to the audience as your ideas may help change practice or generate further research.

**References**
Include references where information is cites but it important but use citations sparingly.
- **Ethics statement and Funding**
  If your SARP Course project requires compliance approval for using human subjects (IRB), animals (IACUC), or biohazardous materials (IBC) please include a statement that this project was approved and provide a protocol number. If this project did not require institutional compliance, a statement attesting to that fact should be provided. If your project was funded by a grant, please add a statement acknowledging the funding source.

- **Additional considerations for your Poster Presentation:**
  - Your Poster Presentation will be assessed by a faculty member using a rubric available in the SARP Syllabus and on the SARP Website. Review this assessment rubric so you’re familiar with how elements of your Poster Presentation will be graded.
  - Be certain to work closely with your mentor on Poster Presentation and obtain and incorporate feedback Poster Presentation.
    - Practice your presentation with your lab, colleagues, friends, etc. Ensure you can explain all aspects of your poster, remember there is a question answer session as part of the presentation.
  - Provide relevant citations using the format suggested in the AMA Style Manual. Be certain to read the cited references so the Poster Presentation has scholarly integrity.
  - Edit your Poster Presentation carefully:
    - Proofread (suggestion: have a naïve reader look at your final draft).
    - Check spelling
    - Check grammar
    - Check the accuracy of your figures (do you have titles and labeled axes)
    - Be certain your SARP Course project mentor is closely involved in this process.
  - Be sure to include a TTUHSC EP institutional logo as well as a logo from your mentor’s institution (if your project was done outside of TTUHSC EP).

- **Integrity Issues**
  - Students are required to demonstrate a high level of intellectual and personal integrity during all activities related to completion of the SARP Course, in alignment with their professional identity formation as physicians. This includes communicating clearly and honestly and treating all staff, students, faculty and other participants with respect and dignity.
**Grading of the SARP Course Poster Presentation**

Following grading by FSOM faculty reviewers using a grading rubric (available in the SARP Syllabus and on the SARP website), a Pass or Not-Yet-Pass determination will be made. If Pass, the grading rubric will be deposited in the individual student’s ePortfolio. If Not-Yet-Pass, the student will be contacted by email, the grading rubric included, and provided 2 weeks to revise and represent the Poster Presentation to SARP Directors or faculty reviewers. If Pass, the grading rubric for the revised Poster Presentation will be deposited in the individual student’s ePortfolio. If Not-Yet-Pass, the student will receive a grade of ‘FA’ (Fail) on their official transcript for PSAP 7401 and will be referred to the Committee on Student Grading and Promotion (GPC).

**SARP Course Objectives for the Poster Presentation:**

The following SARP Course Objectives are addressed by completing the SARP Course Poster Presentation:

- **Objective 1:** Students will develop a research question or project theme, identify a faculty mentor, and complete all requirements for the SARP Course.
- **Objective 2:** Students will learn how to search the literature, identifying previous knowledge and theory that provides context and relevance for their project.
- **Objective 4:** Students will choose and employ adequate methods for the acquisition and statistical analysis of data and information for their project.
- **Objective 5:** Students will submit a Poster Presentation for their project, providing a concise summary of the project execution, data acquisition and analysis, and conclusions.
- **Objective 6:** Students will demonstrate clear and effective communication skills (oral and written) in the presentation of their project.
- **Objective 7:** Students will learn about protection of human and animal subjects involved in research.
- **Objective 8:** Students will learn and exhibit ethical principles in the design and execution of their projects.
- **Objective 9:** Students will exhibit attitudes and behaviors consistent with professional conduct of research and scholarship.
- **Objective 10:** Students will submit each assignment by the deadline and respond to all communications and feedback in a timely and professional manner.
- **Objective 11:** Students will collaborate generously and professionally with their mentor, faculty, students, and staff during completion of their research project.
- **Objective 12:** Students will learn principles of self-directed and life-long learning and apply these to the design and execution of their projects.
- **Objective 13:** Students will learn the principles of self-efficacy, monitoring and sharing personal progress through self-evaluation and reflection, and SARP Course evaluation.
**Guidelines for SARP Course Progress Reports**

**Progress Reports** are due for students completing their SARP Course by Track 2 or Track 3 (Figure 1). **Progress Reports** provide concise updates on the status of your SARP Course project and must be approved by your SARP Course project mentor.

**Three Tracks to complete SARP Course**

<table>

</tr>
</tbody>
</table>

**Figure 1**

**Progress Report Points of Emphasis**

- If you have any questions or concerns about your SARP Course Project **Progress Report**, don’t hesitate to contact the SARP Course Faculty Co-Directors or SARP Director via SARP-ELP@ttuhsc.edu. Deadlines and additional information are available on the SARP Website.

- Your SARP Course project mentor is responsible for approving your **Progress Report**. **Work proactively to develop a solid working relationship with your mentor** to maximize both the success of your project and your professional development.

- Your **Progress Report** must be submitted electronically through the REDCap portal. You will receive an email invitation prior to the deadline. You need to submit 2 Progress reports for completing the SARP Course by Track 2, and 4 Progress reports for completing the SARP Course by Track 3 (see Figure 1).
Progress Report Contents

Your SARP Course Progress Report will be submitted through REDCap and contain the following elements:

- Student name and R-number
- Expected graduation class (e.g., C2027)
- Student email address
- Date
- Title of SARP Course project
- Mentor name and affiliation
- Mentor email address
- Compliance update
- Project tasks completed to date
- Expected completion date for the SARP Course

Be certain to work closely with your mentor on completing Progress Report. Your mentor will formally sign-off on this document through the REDCap software.

- Project Information on Record
  This information should correspond to the title of the project for which you previously submitted a Project Plan. If you are changing projects or working with a new mentor on the same project, you need to submit a Project Change Request (form available in the Syllabus Appendix, on the SARP Website, and on Elentra).

- Compliance
  If your SARP Course project requires compliance approval for using human subjects (IRB), animals (IACUC), or biohazardous materials (IBC), it is your responsibility to work with your mentor to document these in the Progress Report. Clearly describe what compliance is in place or the schedule for obtaining compliance. Please note no data collection should occur without compliance documentation being approved by the institution. The letter from the IRB, IBC and/or IACUC must be up to date and include your name on the protocol.

- Project Tasks
  Here is where you will check off what portions of your project are completed (Literature Review, Specific Aims, Data Collection/Review, Data Analysis, Final Report, and Poster Presentation). Briefly describe the progress for each unfinished element with particular regard to the completion of each Specific Aim.

- Anticipated Completion
  Select an anticipated completion time for submission of the Final Report and Poster Presentation.
Additional Details
There is a free response space in REDCap where you can include any details you think the SARP team should be aware of regarding your project.

Additional considerations for developing your Progress Report:

- Your Progress Report will be assessed by the SARP team but is not graded. This Progress Report is a means to maintain accountability for progressing through the SARP course requirement and to make the SARP team aware of any potential issues with completion of your SARP Course project.

- Be certain your SARP Course project mentor is actively involved in this process.

Integrity Issues

- Students are required to demonstrate a high level of intellectual and personal integrity during all activities related to completion of the SARP Course, in alignment with their professional identity formation as physicians. This includes communicating clearly and honestly and treating all staff, students, faculty and other participants with respect and dignity.

SARP Course Objectives for the Progress Report:
The following SARP Course Objectives are addressed by completing the SARP Course Progress Report:

- **Objective 1:** Students will develop a research question or project theme, identify a faculty mentor, and complete all requirements for the SARP Course.
- **Objective 6:** Students will demonstrate clear and effective communication skills (oral and written) in the presentation of their project.
- **Objective 7:** Students will learn about protection of human and animal subjects involved in research.
- **Objective 9:** Students will exhibit attitudes and behaviors consistent with professional conduct of research and scholarship.
- **Objective 10:** Students will submit each assignment by the deadline and respond to all communications and feedback in a timely and professional matter.
- **Objective 11:** Students will collaborate generously and professionally with their mentor, faculty, students, and staff during completion of their research project.
Guidelines for Project Change Request

The Project Change Request is designed to provide notification for a change in the status of your SARP Course project. This change in status can occur due to several circumstances. Each scenario is described below, along with the corresponding information you will need to submit as a Project Change Request.

1. **You are continuing to work on the same project as described in your original Project Plan, but with a new mentor.**
   - In this case, you need to complete a REDCap form with the new mentor’s name and contact information, briefly describe why you have a new mentor, and update your expected project completion date (choose Track, see Figure 1). The original mentor (if available) and the new mentor will need to sign off on the REDCap Project Change Request.
   - If project requires an IRB, IBC, or IACUC forms, you need to ensure your new mentor is listed on these documents.

2. **You are continuing to work with the same mentor (as documented in your Project Plan) but want to switch to a new project.**
   - In this case, you will describe why you are switching to a new project.
   - This Project Change Request also requires a new Project Plan to be submitted according to the Project Plan guidelines. This new Project Plan will be reviewed and assessed by a faculty member using the grading rubric available in the SARP Syllabus.
   - You will need to update your expected project completion date (choose Track, see Figure 1).
   - Your continuing mentor will need to sign off on the REDCap Project Change Request.
   - If the new project requires an IRB, IBC, or IACUC forms, you need to ensure your new mentor submits these documents and adds you to the application(s).

3. **You want to change to a new SARP Course project and a new mentor.**
   - In this case, you need to describe why you are switching to a new mentor and a new project.
   - This Project Change Request also requires submitting a new Project Plan according to the Project Plan guidelines. This new Project Plan will be reviewed and assessed by a faculty member using the grading rubric available in the SARP Syllabus.
   - The new mentor will need to sign off on the REDCap Project Change Request.
   - Update your expected project completion date (choose Track, see Figure 1).
   - If the new project requires an IRB, IBC, or IACUC forms, you need to ensure your new mentor submits these documents and adds you to the application(s).
Project Change Request Points of Emphasis

- There is no deadline for submitting a Project Change Request; however, you should submit as soon as possible after your SARP Course project trajectory changes, ensuring to keep SARP administration current, and to obtain any useful guidance or advice and IRB, IBC, and/or IACUC documents submitted for completing your SARP Course requirement.

- Access to the Project Change Request can be requested from the SARP Email. Once received a REDCap link will be sent to you for completion.

- The SARP Syllabus, Guidelines, and additional information can be found on the SARP Website: SARP Website.

- If you have any questions or concerns about your SARP Course Project Progress Report, don’t hesitate to contact the SARP Course Faculty Co-Directors or SARP Director via SARP-ELP@ttuhsc.edu.
