

Mission & Vision

The mission of the Office of Faculty Development is to nurture the faculty of Texas Tech University Health Sciences Center El Paso by providing dynamic training aimed at enhancing teaching skills, leadership skills, scholarship and research.

The vision of the Office of Faculty Development is to assist faculty in becoming effective clinical educators, researchers and scholars through innovative courses, workshops and mentoring initiatives.

TTUHSC El Paso – Office of Faculty
Development

5001 El Paso Drive | El Paso, TX 79905

Office of Faculty Development

Our goal is to allow faculty to enhance their teaching and assessment skills, maintain competence in their discipline/specialty, achieve career advancement and professional satisfaction, engage in research and scholarship projects, develop leadership skills and participate in academically related public service through self-discovery, group discussions, and collaborative networking.

Office of Faculty Development

Community Faculty Development Program

The Office of Faculty Development and the Offices of Continuing Medical Education (CME) and Nursing Education (CNE) coordinate the training sessions for enhancing the faculty teaching and assessment skills.

Numerous award-winning educators, education specialists of TTUHSC El Paso, and speakers from local and regional academic institutions give presentations at our sessions and grand rounds.

Community faculty and community physicians are encouraged to join our online courses and live teleconference, and earn their educational credits at no cost.

Furthermore, the Office of Faculty Development has purchased subscriptions to an innovative website known as Teaching Physician for our community faculty. Teachingphysician.org is a just-in-time tool for our valued community preceptors. Access is available at Teachingphysician.org. This site offers videos and tips on a variety of medical education topics including orienting a learner and the principles of precepting. Up to 40 CME credits can be earned by reviewing the information found at Teachingphysician.org.
