Dean, PLFSOM

Dr. Lange provided a brief update:

- **COVID-19 Update**
  - Dr. Lange thanked all faculty, students, and staff for doing their part to help keep the number of COVID-19 infected individuals low. The latest weekly report noted only two cases of infection, one student and one faculty member. The campus continues to encourage the use of masks and restrictions for large gatherings and group meals.
  - Physicians, students, and volunteers helped with a vaccination clinic last week which provided over a thousand primary, secondary and booster COVID-19 vaccinations to the community. Dr. Lange thanked the campus for helping the community while also keeping education, research and clinical care available.

IV. FACULTY AFFAIRS UPDATE

KoKo Aung, M.D., M.P.H.
Associate Dean for Faculty Affairs, PLFSOM

Dr. Aung provided an update:

- **2020 & 2021 Annual Faculty Evaluations**

V. DEPARTMENT REPORT

Olufemi Aduroja, M.D., M.P.H.
Representative, Department of Internal Medicine – Transmountain

Dr. Aduroja provided an update from the Department of Internal Medicine - Transmountain:
Department Report Continued...

*Please see attached report

Q&A
Q: In regards to support staff, what do you think have been some of the contributing factors for the large turnover?
A: It could be a reallocation of resources such that a staff member is moved to another department. There are some staff members that do leave the institution. It could also be related to the general recruitment issue the country is experiencing. No single issue in particular.

VI. STANDING COMMITTEE REPORT

Armando Meza, M.D.
Associate Dean for Graduate Medical Education & Committee Chair

Dr. Meza provided an update from the Department of Internal Medicine - Transmountain:

*Please see attached report

Q&A
Q: Does this committee oversee the research done by residents?
A: No, this is the responsibility of each department. Each department’s program director is to work with the residents to oversee that they comply with research or any other scholarly activity.

Linda Ellis, M.D., M.J, M.A.
Associate Dean for Student Affairs & Committee Chair

Dr. Ellis provided an brief update:
- Committee on Student Affairs
  - Dr. Ellis stated that the Committee on Student Affairs had not been active for several years. She was told that previous leadership felt the committee was unnecessary. Dr. Ellis agreed that the committee should resume its activity. After reviewing the committee’s charge, Dr. Ellis noted that she would like to follow this charge and work to improve what is done in the Office of Student Affairs. Dr. Ellis expressed interest in revising the committee’s membership

structure to include the other schools. The Office of Faculty Affairs will discuss with Dr. Ellis the process for reactivating the committee and the proposed amendments to the structure.

**Q&A**

**Q:** Is there overlap with other committees in relation to the charge of this committee? This may have been one of the reasons why leadership felt it unnecessary to continue the committee’s activity.

**A:** This is part of the concern regarding membership. We are pulling from the PLFSOM Curriculum and Evaluation Committee. We may have the opportunity to have ex-officio students who would like to be there as well as one delegate from each college. It is an opportunity for improvement and getting other students to have a voting option for them. That is something the first and second year students have rallied for.
