

## Welcome

The Texas Tech University Health Sciences Center (TTUHSC) at El Paso Department of Family and Community Medicine practice provides patient and family-centered medical care that is accessible and affordable. We provide care for infants, children, pregnant women, adults and the elderly.

Many of our physicians are bilingual (English/Spanish). Our board-certified family physicians also supervise and train family medicine resident physicians and medical students.

The Texas Tech University Health Sciences Center at El Paso Family Medicine Center has been recognized as a patient-centered medical home (PCMH) by the National Committee for Quality Assurance (NCQA) as a level one patient-centered medical home. A patient-centered medical home is a way of organizing primary care that emphasizes communication, care coordination, patient satisfaction and improved health.

Our center has a strong research program and a number of research studies under way. Topics include cancer prevention and screening, obesity and wellness.
