Welcome to Gold Rush!
Gold Rush is a tool to help you find information on a specific topic or from a specific journal.

You can begin simply by entering a term in the Search Term field to the left, selecting a search type from the drop down field, then clicking "Search".

If you are at a computer in your library, your institution will automatically be set. If you are using Gold Rush from somewhere outside your library, be sure to select an institution (library) that you are affiliated with. Most of the databases you will connect to will ask for your name and your library card number, so have that information ready.

To select your institution, choose from the drop down field, then click "Change".

For more information about Gold Rush or how to use it, click on the "Help" link above.
