Dr. Salvador Baeza is director of the West Texas Regional Poison Center at University Medical Center of El Paso. A native of the Big Bend region, he has made El Paso his home since graduating from the University of Texas at Austin College of Pharmacy. He completed a pediatric pharmacy residency before joining the poison center in 2002. In 2007, Dr. Baeza was named a diplomat of the American Board of Applied Toxicology and has served on ABAT’s board of directors from 2014 to now. This summer, he was also elected to the American Association of Poison Control Centers’ board of directors. Dr. Baeza and the West Texas Regional Poison Center have partnered with the Southwest Center for Pediatric Environmental Health in answering its hotline and providing educational programs since 2004.

Objectives: Upon completion of this session, participants should be able to:

- Discuss common acute childhood poisoning exposures.
- Identify trends in poisonings as children grow from toddlers to school-aged children to teens.
- Recognize services available from regional poison centers to parents and health care providers.

Accreditation: The Texas Tech University Health Sciences Center El Paso Paul L. Foster School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit Designation: The Texas Tech University Health Sciences Center El Paso Paul L. Foster School of Medicine designates this live activity for a maximum of 1 AMA PRA Category 1 Credit ™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure: Salvador Baeza, Pharm.D., DABAT, has no relevant financial relationships to disclose.

All members of the planning committee for this series have signed disclosures stating no relevant financial relationships exist with any industry support companies.
