This course will guide the learner through the process of writing a scientific article and submitting it to a peer-reviewed journal.

Course Delivery: Online, asynchronous. Course Material: Materials are found in the Canvas course. Course Textbook/Materials: The required textbook is *How to Write and Publish a Scientific Paper, Eighth Edition*, by Barbara Gastel and Robert A. Day (Santa Barbara, CA: Greenwood; 2016). For IFDP XIX participants: This book has been provided to you by the Office of Faculty Development (as a physical copy/paperback book). Program Overview and Target Audience: Various scholarly skills will be developed, including the ability to write a scientific article and submit it to a peer-reviewed journal. These synchronous activities are designed for physicians, registered nurses, other interested health care providers and scientists.
