7th Annual
Surgical Oncology Update
Thursday, March 10, 2022

Texas Tech University Health Sciences Center El Paso
Academic Education Center, Auditorium B
4800 Alberta Ave., El Paso, TX 79905
And Via Webex

Objectives: Upon completion of this activity, participants should be able to:

- Discuss the epidemiology and characteristics of different types of pancreatic cystic lesions.
- Explain the role of endoscopic ultrasound and other diagnostic modalities in management of pancreatic cysts.
- Differentiate between benign and malignant intraluminal gastrointestinal lesions.
- Identify common and uncommon gastrointestinal lesions that would benefit from endoscopic management.
- Identify the most common orbital and lid cancers.
- Learn the biopsy collection approach and stains to order.
This educational activity will give health care providers a forum to discuss therapeutic options for cancer treatment.

**Program Agenda**

8:45 - 9 a.m.
